

Vehicle Weight Fee

What it is and when it's due...

The vehicle weight fee is charged on renewals of motor vehicles subject to the \$30 license tab fee, and is based on the vehicle's scale weight. The vehicle must be powered (a motor vehicle) and one of the following use classes: **CAB**, **CYC**, **F/H** (6 seats or less), **PAS**, **STA** (6 seats or less), or **TOW**.

Note: If license fees are due when issuing a horseless carriage, collector, or restored plate, be sure to include the vehicle weight fee if the vehicle would normally be license with one of the use classes listed above.

Vehicle Weight Fee Table - Total includes the vehicle weight fee, \$30 license tab fee, and \$3 filing fee. It does NOT include any other fees or taxes.
